# INSTALLATION GUIDE

Make sure the tray is 100% level in all directions. Do Not attempt to install the product unless you can tick all 4 boxes satisfactorily.

- **Check that you have the tools required** ☐
- **Check the installation site is compatible with the sizes of door supplied** ☐
- **Check all the enclosure components are present** ☐
- **Check the installation kit is complete** ☐

The wall plugs supplied with the installation kit are for use in solid walls. Hollow or 'stud partition' walls will require alternative fixings. Please consult a hardware supplier for the correct type.
It may also be necessary to consult your tiling supplier about the correct method for drilling your tiles.

ATTENTION: TAKE EXTREME CARE WHEN HANDLING GLASS, WEAR PROTECTIVE EYEWEAR AND CLOTHING. DO NOT LEAVE THE GLASS ON HARD SURFACES AND AVOID CONTACT BETWEEN THE GLASS EDGES AND HARD SURFACES OR IMPACTS DURING THE INSTALLATION.
**Sleek Chrome** (18)

**Sleek Black / Sleek BBR** (18)
**Note: Chrome / Matt black / Brushed brass colour are available, MB means Matt black, BBR means burshed brass.**

## CLEANING

It is important to clean your Merlyn shower door after every use. Wipe down all the glass and metal parts with a soft cloth. Do not allow lime scale to build up in hard water areas. Ensure that any residual water on the glass is removed after every use.

· Clean the glass regularly using soapy water.

· Do not use abrasive products on any surfaces.

Chrome is vulnerable to acid attack and some strong household cleaners including strong disinfectants, denture cleaners, hair dyes, wine making chemicals and photographic chemicals may contain acid. These materials may have a varying effect on the surface from black spots/streaks (which cannot be removed) to pitting the surface. Contact with these materials should be avoided.

## TROUBLE SHOOTING

### Door Not functioning properly

1.  Is the tray 100% level? (step 1)
2.  Do the finished tile measurements fall within the adjustment A listed on (step 2)?
3.  Are the wall profiles plumb?(step 2)

### Door Leaking

1.  Was the tray adequately sealed before the enclosure was installed?(step 1)
2.  Is the door sealed correctly ?(step 11)
